

## 全球网络在线会议 Library 2.013

2013 年 10 月 18, 19 日在线举行

Library 2.013 是一个全球性的关于图书馆的在线会议，于 2013 年 10 月 18, 19 日在线举行。会议完全免费，任何人都可以参加。会议面向全球征稿，所有的会议发表都是在线进行。这是一个与全球图书馆人对话与交流的绝佳机会。

会议有如下 8 个议题 (Conference Strands) :

### **STRAND 1: Digital Services, Preservation, and Access**

Strand Tag: "2.013Digital"

Example topics:

- Building sustainable digital collections
- Challenges and examples of data curation
- Creating ontologies and metadata schemes
- Implementing digital initiatives among museums, archives and libraries
- Managing digital collections, digital archives, or digital repositories
- New forms of scholarly publishing
- Organizing and managing electronic records including reliability and authenticity issues
- Organizing knowledge that is distributed globally and managed virtually
- Evaluating the user experience and/or other metrics for these projects

### **STRAND 2: Emerging Technologies and Trends**

Strand Tag: "2.013Emerging"

Example topics:

- Augmented reality
- E-books and e-book devices
- Internet of things and smart objects
- Librarians' role in supporting MOOCs
- Mobile access to services
- New forms of delivery and emerging models of literacies such as game-based learning
- QR Codes
- RFID
- Social networking trends and implications
- Evaluating the user experience and/or other metrics for these technologies and trends

### **STRAND 3: Learning Commons (for school libraries and/or academic libraries)**

Strand Tag: "2.013LC"

Example topics:

- Collaborate teaching and learning
- Copyright, licensing, intellectual property
- Distance learners
- Effective techniques for instructing users in the retrieval and evaluation of information
- Embedded librarians
- Information/technology literacies
- Innovative delivery models in school libraries
- Library roles in e-research

- New forms of scholarly publishing
- Physical learning commons
- Technologies in the learning commons
- Virtual learning commons
- Evaluating the user experience and/or other metrics for learning commons

**STRAND 4: Management of Libraries and Information Centers in the 21st Century**

Strand Tag: "2.013Management"

Example topics:

- Advocacy
- Alternative library spaces
- Analytics as used to report value to organizational stakeholders
- Embedded librarians
- Grant writing
- Green libraries
- Managing people
- Marketing/PR
- Outsourcing
- Privatization
- Evaluating the user experience and/or other metrics for these projects

**STRAND 5: User Centered Services and Models**

Strand Tag: "2.013User"

Example topics:

- Community programming
- Innovative programming
- Maker spaces
- Multilingual populations and services
- Participatory service
- Reaching out to diverse communities
- Serving distributed and distance users
- Storytelling
- Evaluating the user experience and/or other metrics for these services and models

**STRAND 6: Library and Information Professionals – Evolving Roles and Opportunities**

Strand Tag: "2.013Evolving"

Example topics:

- Applying library and information science skills in a non-library environment
- Advocacy and building influence (professionally and institutionally)
- Leadership skills needed by library and information professionals
- Library and information professional careers in a networked and changing world
- Retooling and continuing professional development

**STRAND 7: Doctoral Student Research**

Strand Tag: "2.013Doctoral"

Overview:

- Present your research in a non-threatening environment and get feedback from professionals who might be interested in implementing your research.
- Add online presentation experience to your resume –most LIS programs are looking for faculty who can present online.

**STRAND 8: Library and Information Center “Tours”**

Strand Tag: "2.013Tours"

Overview

- Provide an environmental scan of your library or information center. We would like to “see” different libraries from around the world.
- Illustrate the physical layout of your library
- Describe your services
- Describe challenges and how you overcame them
- Questions or ideas? We've set up [a discussion forum](#) for this strand.

开放式会议投稿方式 (Submit a Proposal - Instructions) :

**The Process:**

Proposals can be submitted from April 9 - September 30, 2013. However, we encourage you to submit your proposal before the September deadline because earlier acceptance will give you the most flexibility in scheduling your presentation time during this two-day conference. We will begin accepting proposals June 15th. You may submit more than one proposal, but we will give priority to providing as many presenters the chance to present as possible, before accepting additional proposals from a particular presenter.

Your presentation proposal, once submitted, will be listed on the Library 2.013 website, with the opportunity for members of this network to view, comment on, and/or "like" your presentation proposal. This will give you and the other members of this site the chance to share ideas and to make connections before, during, and after the conference. Additionally, it will allow us to gauge the popularity of your topic or approach. It is our intention that all serious proposals be given the opportunity to be presented.

**Presentation Guidelines:**

Final presentations should be at least 20 minutes in length, and all sessions must be completed (including Q&A) within one hour. All sessions will be held in Blackboard Collaborate (previously Elluminate/Wimba). Presenters will be responsible for familiarizing themselves with the web conferencing platform. We will send you recorded training, as well as provide live training sessions where you can ask questions. To practice, you can also sign up for the Collaborate trial room. Information is at: <http://www.WeCollaborate.com>.

All presentations will be recorded and released under a Creative Commons Attribution-NonCommercial-NoDerivs License. For more information, please visit: <http://creativecommons.org/licenses/by-nc-nd/3.0/>. By submitting to present, you are agreeing to these terms.

Presentations must be non-commercial. Interest in commercial sponsorship or presentations should be directed to Steve Hargadon at [steve@hargadon.com](mailto:steve@hargadon.com).

**Conference Strands:**

You can indicate one or more conference strands when you submit your presentation. Your presentation does not have to fit into the conference strands to be considered--the strands exist for the convenience of those interested in finding particular types of sessions. More detail on the conference strands can be found [HERE](#).

**How to Submit Your Proposal:**

Please follow these instructions carefully. It is your responsibility to make sure your presentation proposal is submitted correctly. You must be signed up on the Library 2.0 network and logged in to submit your proposal. A pdf copy of these instructions you can print out for easy reference can be found [HERE](#).

- 1. VERY IMPORTANT:** [Join the conference presenters group](#) to receive general emails for those who have submitted proposals.
- 2.** Copy the following text (highlight and ctrl-c on your computer):  
Your Name and Title:  
Library, School, or Organization Name:  
Co-Presenter Name(s):  
Area of the World from Which You Will Present:  
Language in Which You Will Present:  
Target Audience(s):  
Short Session Description (one line):  
Full Session Description (as long as you would like):  
Websites / URLs Associated with Your Session:
- 3.** [Click here](#) to open a new forum discussion post. (You must use this link or your proposal will not be in the correct place and will not be visible to conference administrators.)
- 4.** Title your discussion post with the title of your proposed session.
- 5.** Copy the template text (ctrl-v) into the body of the forum discussion post.
- 6.** Fill in the session information according to the template. *If you separate your answers with a blank line and bold the questions, it will make your proposal easier to read.*
- 7.** In the "Category" drop-down field, make sure it indicates "Library 2.013 Conference Submissions & Waitlist." If it does not, please select this value.
- 8.** In the tags field, use the strand tag code for the strand to which you are submitting your proposal.

Digital Services, Preservation, and Access - "2.013Digital"  
Emerging Technologies and Trends - "2.013Emerging"  
Learning Commons (for school libraries and/or academic libraries) - "2.013LC"  
Management of Libraries and Information Centers in the 21st Century - "2.013Management"  
User Centered Services and Models - Tag: "2.013User"  
Library and Information Professionals – Evolving Roles and Opportunities - "2.013Evolving"  
Doctoral Student Research - "2.013Doctoral"  
Library and Information Center "Tours" - "2.013Tours"

9. Click the "Add Discussion" button to submit your proposal.

You are able to modify your proposal after it has been saved and up until the time of the **close of submissions, which is September 30**. If you do modify your proposal after it has been accepted, that will place it back into the "submission" category and you will need to email [steve@hargadon.com](mailto:steve@hargadon.com) to place it back in the "accepted" category.

**Acceptances:**

Proposal acceptances will be communicated on a first-come, first-served basis starting June 15 and ending September 30. If your proposal is accepted, you will be provided with the ability to schedule a presentation time that is convenient to your time zone and work schedule. Early submission and acceptance will give you the most flexibility for scheduling your presentation. The final conference program will be available online in early October.
